

The Library

The Great Falls Genealogy Society Library is open to the public and with a collection of over 10,000 items, it is one of the largest genealogy collections in the Northwest.

Although the emphasis is on Montana and Cascade County genealogy, our Library has extensive resources on other states, Canada, Europe, and a large collection of general information reference material.

Internet access is available to all patrons to aid in their research. Members may use our computers free of charge; a small hourly fee is charged to non-members.

Society volunteers are always available to assist with research.

THE SOCIETY

The Great Falls Genealogy Society was founded in January 1975 as a non-profit educational and research organization. The library was begun the following year.

The mission of the Great Falls Genealogy Society is to promote and encourage active interest in genealogy, compile accurate and complete genealogies, collect and preserve genealogical records and sponsor and operate the Great Falls Genealogy Society Library. Additionally, the Society fosters education and training in genealogy through courses and instruction in genealogy, lectures, forums, seminars, and special work.

Monthly meetings are held September through May and are open to the public. Saturday and Sunday workshops are held throughout the year. Check our schedule at our website.
